94 in the shade yesterday.

The hay and oat crops are being rapidly gathered in.
The crop prospects in Schuyler county are reported as being excellent.
The western part of the county is making a good wheat showing this season.

William Heron brought the finest potatoes to town this week, we have seen this season.

Mrs. Leadman has moved her dress making establishment to the rooms over Chase's paint shop.

The reunion is a fixed fact. Now prepare to have one of the biggest times ever known in Kirkville.

Henry Felker made a trip to Edina Tuesday and reports corn looking splendidly along the entire route.

Gen. John A. Logan is probable that will be with us at the reunion this fall.

We venture the assertion that the cornfields of Adair county were never in better condition, so far as cultivation is concerned, than they are to-day.

When the Kirkville boys play another match game of base ball they should take enough ice water along to keep the scorers cool.

The rapidity with which the corn is growing, this weather, does not quite justify it or pull up the corn field bushes, but each twenty four hours makes a wonderful change.

Godfrey Sprang has twenty acres of wheat that will thresh thirty bushels per acre, he has also just completed a fine barn 30x60 ft. Western Adair is improving.

Frank Gibbs was in town Saturday and his face was wreathed in smiles. The cause of this happy condition will be learned by a glance at our census returns.

L. B. Crowder killed a rattlesnake last Saturday, having thirteen rattles and a button. Authorities in such matters say his snakeship would have been fifteen year old next grass.

Ex Mayor Sees has just completed a fine residence of ten rooms, near the Normal and sold same to William Gibbons as soon as completed for \$1400. Mr. Sees will begin the erection of another at once.

The Missionary entertainment at the Mercantile College last Thursday evening was a very creditable and interesting one and was worthy of a most liberal patronage. The program was essentially the same as announced in the Graphic two weeks since.

We are not competing with the Sandwich Islands on job work but we do propose to get there a little ahead of anything in North Missouri. Bring on your job work. We will turn it out promptly, in the best style known to the art, and on shortest notice.

Parcell's Gallery has been moved to the north side, in the new brick block. He has bought out Mr. Tull and will thoroughly refit and refurnish the gallery and will be better prepared to do a fine work than ever before. Give him a call in his new quarters.

We have had on our table this week, the most perfect apples. They are of the Ben Davis variety and grown by Mr. Geo. Rice. Such perfect specimens of this delicious fruit at this season of the year not only speaks for this variety as a keeper but also for Mr. Rice as knowing how to handle it.

Mr. Geo. W. Tull, having sold out his interests in Kirkville, left for Virginia last Tuesday night. Mr. Tull has been in business in this place almost from boyhood, and his kind and courteous manner has won for him a host of friends, who will learn with regret of his departure. Our kindest wishes go with him and we feel that his straight forward conduct in life will bring him a lucrative business wherever he may locate.

The Edina and Kirkville nines played a match game of ball last Thursday afternoon for \$50 a side. By an error of the scorer the game was decided lost to the Kirkville boys while it was really a tie. The error was not discovered till the money had been turned over and of course the Edina boys kept it. Below gives the score.

THO. MORRY will return from an extended trip to St. Louis, Chicago, Toledo and Detroit this week. We understand he took lessons in elocution while in Chicago.

Geo. MARTIN, of Sperry, who has been ill for a number of months and not expected to recover, has happily deceived himself and his friends and was able to be in town Tuesday. He is now rapidly regaining his former strength.

Mrs. P. B. THOMAS, of Sullivan county, is visiting her daughter, Mrs. Frank Guinn of this city. She would be pleased to have her many friends call and see her during her stay, which will be several days.

MARRIED.

HENRY—WALTERS—On Tuesday, July 14 at the residence of the bride's mother, eleven miles north east of Kirkville, Dr. C. D. Henry to Miss Emma C. Walters, Elder Williams, of Sperry, officiating.

But a few intimate friends witnessed the union of the happy pair, but joy reigned supreme, and the favored few will long remember the occasion as one of the pleasant incidents of their lives. We are glad to know that the sedate Doctor has at last succumbed to the charms of winsome woman. We congratulate him on the excellence of his choice, also the young bride in securing for a husband one who is in every way worthy the trust she gives him. Certainly we wish them a pleasant journey down the stream of time. S.

FLOUR! FLOUR! FLOUR!

Times are hard and money scarce, so go to B. W. Ross and save from ten to fifteen cents, on a sack of flour.

I hereby return thanks to my citizen neighbors for their persistent labors in extinguishing the fire from my building. More was accomplished than could have been expected with the means at hand. Wm. HART.

FIRE FIEND.

Monday night near 12 o'clock the Fowler brothers discovered fire in the music store of W. A. Adams. They sounded the alarm at once, but before the crowd gathered the entire interior of the building was in a blaze.

The men worked heroically and the flames were subdued in the front room but not till every instrument and the wood-work had been entirely destroyed. The fire engine was brought into requisition and did excellent work in a place where buckets could not be used.

The building belongs to Wm. Hart and was insured for only \$500. which will hardly cover the loss. Mr. Adams' stock, consisting of pianos, organs, etc., valued at \$2,000, was a total loss; insurance \$1,400. The upper story was occupied by Mrs. Leadman as a dress-making establishment. Her customer's goods were about all saved, but her own goods were nearly a total loss, and she did not save so much as a full suit of clothing; no insurance.

The building adjoining is owned by Drs. Goben & Morrow who have their offices in the lower story; the upper story being occupied by Dr. Carter as dental rooms. The furniture was removed from both stories, but was very much injured in handling. The glass front was broken in and total damages will probably reach fifty dollars. No insurance.

The origin of the fire is a mystery. Mr. Adams had purchased a half dozen boxes of matches Monday, one of which he had opened and placed on a shelf in the work shop, easily accessible to the mice, and the fondness of these animals for phosphorus may have been the cause of the fire.

Sad Accident.

Tuesday morning a very distressing accident happened at the home of Ira Aderson, three and a half miles north west of town. All of the folks were away from home excepting the thirteen year old son Frank, and a neighbor boy, son of J. S. Prickett. In the house was that treacherous weapon, the shot gun, which the boys had used in their plays a day or two before, when it was not loaded. Young Prickett picked up the gun, thinking it still unloaded and pointed it at Frank, who was standing with his back toward him. He pulled the trigger just as Frank turned toward him, and he caught the entire load, a heavy charge of No. 6 shot, in his face and body. Dr. Coe was immediately summoned, and picked sixty-five shot from the boy's face. The left eye was entirely destroyed and the right seriously injured. The boy is not necessarily fatally injured, but suffers terribly.

Hot Springs.

Ed. GRAPHIC—This city is now quite hot, but the sun has more to do with it than the Springs.

A big fire here yesterday burned the Huff hotel, and three stores; two private houses were also burned last Tuesday night. There was a heavy rain yesterday and all vegetation is looking well. The fruit crop was never better than this year. Garden truck is plentiful, and corn and oats are abundant.

There are only about 800 visitors here at present the times are such that people cannot pay the prices charged for board. Labor and provisions are cheap, but board is as high as in the colonies of Australia.

There are seventy hot springs, one thousand hotels, sixty doctors and seven thousand people in this place.

A great revival is going on here conducted by a Methodist minister, Rev. Harry May, a converted Jew from Missouri. Fifty persons have been converted and great crowds attend every evening. M. S.

Hot Springs, Ark., July 17th, 1885.

Base Ball.

In this week's Democrat appears an article in regard to the game of ball played between the Edina and Kirkville boys which is not endorsed by the club. We want Edina to know that it was not written by a member of the club, nor did we know that such an article was to be published. We are sorry and ashamed to see it as coming from anyone in Kirkville, and especially to see it over K. B. B. C. Believe us when we say the club is innocent of the wrong done you, for it was a wrong. But boys that new ball you took home with you does not belong to you, so do the square thing by us and send it back, as we have done the square thing by you in refuting that slanderous article. And once more we say the club must not be held responsible for an article that no gentleman in the club would write.

The Rights of Indians.

Frank Cluster and Robert Darrow, of Kirkville Adair county, Mo., were yesterday arraigned in the United States District Court on information charging them with selling liquor to Indians. It is expressly prohibited by section 2139 of the Revised Statutes for any one to sell or give to Indians any intoxicating drinks, and both fine and imprisonment are prescribed as the penalties. It was held that the law applied only to Indians on the reservation, that Congress had no power to pass such a law, and it was hence unconstitutional. The Supreme Court decided that Congress had power to pass such a law, that it was constitutional, and applied not only to Indians on reservations but wherever they might be in the country. In the information filed it appears that Henry Kaiser and Wm. Carpenter, Shawnee Indians, were members of a Wild West Show, and a rival concern attempted to keep them and their companions drunk that they might not be in condition to appear with the company. With this work Cluster and Darrow are charged. They were fined \$5 and costs, and sentenced to spend one day in jail, the judgement to be subject to review by Judge Treat, who gave it, and in the meantime the prisoners were released on their own recognizances. It was because he was not satisfied on the matter of the information that Judge Treat so decided, and as the sufficiency of the information is shown to him he will finally decide.—Globe Democrat.

Judge Treat will decide next Saturday whether it is an offense to sell whiskey to Indians in Missouri, and the next thing we would like to know is, how the Globe Democrat got its information about the rival Wild West show.

Reunion.
